

## Issues

| #    | Project                 | Tracker | Status | Priority | Subject  | Assignee           | Target version | Category        | Sponsored | Start date | Estimated time |
|------|-------------------------|---------|--------|----------|--|--------------------|----------------|-----------------|-----------|------------|----------------|
| 1010 | Access to Memory (AtoM) | Bug     | New    | High     | DIP fails to upload if any filenames are missing file extensions   | Sarah Romkey       |                |                 | No        |            |                |
| 1277 | Archivematica           | Bug     | New    | Low      | Descriptions for micro services should be dynamically received from the MCP server.                      | Mike Cantelon      |                | MCP             | No        |            |                |
| 1519 | Archivematica           | Feature | New    | Low      | Field validation in rights edit templates  | Mike Cantelon      |                | Forms           | No        |            |                |
| 1537 | Archivematica           | Feature | New    | Low      | Management of persistent MCP metadata needed for statistical reports                                     | Mike Cantelon      |                | Data management | Yes       |            | 24.0           |
| 1586 | Archivematica           | Feature | New    | Low      | Synchronize metadata updates in access systems to AIP  |                    |                | AIP Management  | No        |            |                |
| 1596 | Archivematica           | Feature | New    | Low      | Resolve currentPath vs. currentLocation  |                    | post 1.1       | MCP             | No        |            | 16.0           |
| 1754 | Archivematica           | Feature | New    | Medium   | Show selection once selection has been made from dropdown.   | Mike Cantelon      |                | Dashboard       | No        |            | 4.0            |
| 1826 | Archivematica           | Task    | New    | Low      | Sort order of tasks  | Mike Cantelon      |                | Dashboard       | No        |            |                |
| 1889 | Archivematica           | Feature | New    | Low      | Add underscores and periods as tokenizers to value list in ElasticSearch                                 | Mike Cantelon      |                | Index/Search    | No        |            |                |
| 1924 | Archivematica           | Bug     | New    | Medium   | Archivematica language metadata not exporting properly to AtoM   |                    | post 1.1       | Metadata        | No        |            |                |
| 1999 | AtoM Wishlist           | Feature | New    | High     | integrate GoogleMapAPI   | Peter Van Garderen |                |                 | No        |            |                |
| 2021 | AtoM Wishlist           | Feature | New    | Low      | Forgotten Passwords  |                    |                |                 | No        |            |                |
| 2023 | AtoM Wishlist           | Feature | New    | Low      | new user welcome email   |                    |                |                 |           |            |                |
| 2033 | AtoM Wishlist           | Feature | New    | Low      | Googlemaps link Repository profile   | Peter Van Garderen |                |                 |           |            |                |
| 2049 | AtoM Wishlist           | Feature | New    | Low      | remote digital object storage (eg. Amazon S3, .Mac)  |                    |                |                 |           |            |                |
| 2051 | AtoM Wishlist           | Feature | New    | Low      | linking information object/actors to Places (+ searchable date ranges)                                   |                    |                |                 |           |            |                |
| 2056 | AtoM Wishlist           | Feature | New    | Low      | upload (and search) the full text of textual documents or transcriptions of audio/video documents        |                    |                |                 |           |            |                |
| 2060 | AtoM Wishlist           | Feature | New    | Low      | checksum generation for uploaded and imported files, and record this information so it can be used later |                    |                |                 |           |            |                |
| 2066 | AtoM Wishlist           | Feature | New    | Low      | navigation history plugin  |                    |                |                 |           |            |                |
| 2082 | AtoM Wishlist           | Feature | New    | Low      | extent & medium / date range helper displays (at collection level)                                       |                    |                |                 |           |            |                |
| 2085 | AtoM Wishlist           | Feature | New    | Low      | UI for editing / import dynamic metadata element set   |                    |                |                 |           |            |                |

| #    | Project                 | Tracker | Status | Priority | Subject  | Assignee           | Target version | Category       | Sponsored | Start date | Estimated time |
|------|-------------------------|---------|--------|----------|--|--------------------|----------------|----------------|-----------|------------|----------------|
| 2089 | AtoM Wishlist           | Feature | New    | Low      | METS XML import/export   | Peter Van Garderen |                |                |           |            |                |
| 2090 | AtoM Wishlist           | Feature | New    | Low      | Develop local/custom templates from simple config  |                    |                |                |           |            |                |
| 2101 | AtoM Wishlist           | Feature | New    | Low      | Metadata & object versioning / auditing  |                    |                |                |           |            |                |
| 2120 | AtoM Wishlist           | Feature | New    | Low      | Saved searches across sessions   |                    |                |                |           |            |                |
| 2121 | AtoM Wishlist           | Feature | New    | Low      | Search-within-search -- sorted & filter by relevance; date; place; file type                       |                    |                |                |           |            |                |
| 2128 | AtoM Wishlist           | Feature | New    | Low      | get() inherited value fallback   |                    |                |                |           |            |                |
| 2149 | AtoM Wishlist           | Feature | New    | Low      | add back-up task to Admin menu   |                    |                |                |           |            |                |
| 2153 | AtoM Wishlist           | Feature | New    | Low      | add QubitSetting UI labels to default content translation  | Peter Van Garderen |                |                |           |            |                |
| 2157 | Access to Memory (AtoM) | Bug     | New    | Low      | symfony cache system for ORM identity map?   |                    |                |                |           |            |                |
| 2164 | AtoM Wishlist           | Feature | New    | Low      | Allow inactive terms in taxonomies   |                    |                |                |           |            |                |
| 2193 | AtoM Wishlist           | Feature | New    | Low      | Add dimensions meta-data to image digital object   |                    |                |                |           |            |                |
| 2218 | AtoM Wishlist           | Feature | New    | Low      | Automate "Language of description" in Description control area                                     |                    |                |                | No        |            |                |
| 2224 | AtoM Wishlist           | Feature | New    | Low      | Translate bar: add info about translation status of current record                                 | Peter Van Garderen |                |                |           |            |                |
| 2278 | Access to Memory (AtoM) | Bug     | New    | Low      | Can't delete authority file if it is also being used as a repository                               |                    |                |                |           |            |                |
| 2293 | AtoM Wishlist           | Feature | New    | Low      | Source field (InfoObject, Actor, Repository, Term): replace by multiple source notes in Note table |                    |                |                | No        |            |                |
| 2294 | AtoM Wishlist           | Feature | New    | Low      | GoogleMap integration  |                    |                |                | No        |            |                |
| 2296 | Access to Memory (AtoM) | Bug     | New    | Low      | Conflicting user permissions breaks Zend Search  |                    |                | Access Control |           |            |                |
| 2309 | AtoM Wishlist           | Feature | New    | Low      | Properties module  | Peter Van Garderen |                |                |           |            |                |
| 2312 | AtoM Wishlist           | Feature | New    | Low      | pluralization in ui labels   |                    |                |                |           |            |                |
| 2325 | Access to Memory (AtoM) | Bug     | New    | Low      | Installer fails .htaccess detection on our server because we use http authentication               |                    |                |                |           |            |                |
| 2354 | AtoM Wishlist           | Feature | New    | Low      | Deleting archival institution should give option of deleting all associated archival descriptions  |                    |                |                |           |            |                |
| 2364 | Access to Memory (AtoM) | Bug     | New    | Low      | Pluralize taxonomy names   | Peter Van Garderen |                |                |           |            |                |
| 2366 | AtoM Wishlist           | Feature | New    | Low      | Global Updates   |                    |                |                |           |            |                |
| 2368 | AtoM Wishlist           | Feature | New    | Low      | Group digital object browse by collection  |                    |                |                |           |            |                |
