This will be hard to test after fixing the error that was causing the problem in #13144. I'm pretty sure it's fixed, but let me know if you want me to find a way to reproduce the issue.

##### #5 - 08/21/2019 03:12 PM - Sara Allain

Metadata-only DIP upload seems to be working just fine, so I don't know that it's worth going to extra effort to reproduce this error result.
