

Access to Memory (AtoM) - Bug #13145

Digital object metadata is not visible when Markdown is disabled

08/12/2019 11:50 AM - José Raddaoui Marín

Status:	Verified	Start date:	08/12/2019
Priority:	Medium	Due date:

Description

Some metadata added to the digital objects in DIP uploads doesn't appear in the IO index page when Markdown is disabled. Similar to #13131, the escaping strategy is messing with the following condition:

https://github.com/artefactual/atom/blob/qa/2.6.x/apps/qubit/modules/digitalobject/templates/_metadata.php#L50

History

#1 - 08/12/2019 12:49 PM - José Raddaoui Marín

- Status changed from New to Code Review

Ready for code review: <https://github.com/artefactual/atom/pull/952>

#2 - 08/14/2019 04:58 AM - José Raddaoui Marín

- Status changed from Code Review to QA/Review

- Assignee changed from José Raddaoui Marín to Dan Gillean

Ready for testing in qa/2.6.x and dev/dip-upload-stable (based on stable/2.5.x with all the DIP upload related fixes).

To test this, after performing a metadata only DIP upload to AtoM, make sure the same digital object metadata is displayed with and without Markdown enabled.

#3 - 08/21/2019 03:08 PM - Sara Allain

- Status changed from QA/Review to Verified
