#### Description

The generate slugs task doesn't consider the root objects and it only generates slugs for missing slug rows (not missing slug value):

<https://github.com/artefactual/atom/blob/qa/2.x/lib/task/propel/propelGenerateSlugsTask.class.php#L141>

<https://github.com/artefactual/atom/blob/qa/2.x/lib/task/propel/propelGenerateSlugsTask.class.php#L144>

It's not a recurrent issue and it requires some manual intervention to produce it (like deleting all slugs manually from the table), but improving the task to address these cases shouldn't hurt and it could fix these edge cases.
