

Access to Memory (AtoM) - Bug #13534

CSV export task exports information objects representing PDF pages

06/22/2021 08:29 PM - Mike Cantelon

Status:	New	Start date:	06/22/2021
Priority:	Low	Due date:

Category:	CSV export	Estimated time:	0.00 hour
Target version:		Tested version:	
Google Code Legacy ID:		Requires documentation:	
Sponsored:	No		

Description

When using the csv:export task auto-generated information objects that are associated with PDF pages get exported. This can be suppressed by using the --criteria="level_of_description IS NOT NULL" option but perhaps we should be weeding these out of exports by default.

History

#1 - 06/22/2021 08:31 PM - Mike Cantelon

Note: information objects that are associated with PDF pages only get generated when the "Upload multi-page files as multiple descriptions" setting is set to "Yes".
