

AtoM Wishlist - Feature #4178

Limit global search and replace to specific descriptions (and descendants)

02/03/2012 12:00 AM - Jesús García Crespo

Status: New	Start date:
Priority: Medium	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 8.00 hours
Target version:	Tested version:
Sponsored: No	
Description Suggested by S Lindberg from UBC Digital Initiatives Not so much a bug, as a feature request, but it would be tremendously useful to be able to limit the global search and replace function to specific fonds/files/folders. This would make it much more useful for correcting or updating information that is specific to just a particular section rather than an entire collection. [g] Legacy categories: Global Search & Replace
