Description

To reproduce this error: =====
1)Navigate to persons/organizations and select a record
2)When viewing the selected record, click on the Control Area title bar

Resulting error: =====
User is taken to the edit template, but the control area is not open for data entry

Expected result: =====
User is taken to the edit template with the Control Area already dropped down/open for data entry

[g] Legacy categories: Actor, Form validation
