

Access to Memory (AtoM) - Bug #4286

Tooltips cannot be disabled

05/16/2012 09:00 PM - Dan Gillean

Status:	Verified	Start date:	
Priority:	Medium	Due date:	
Assignee:	José Raddaoui Marín	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	Release 1.3.1	Tested version:	
Google Code Legacy ID:	atom-2338	Requires documentation:	
Sponsored:	No		

Description

To reproduce this error:

- 1) Login as an admin, and navigate to Admin>Settings>Global
- 2) Under the "Show tooltips" option, select "no" and click save
- 3) Navigate to a record (Actor, Information Object, Repository, etc) and select edit
- 4) Place the cursor in any field

Resulting error:

Tooltips are still displayed

Expected result:

Tooltips should no longer be visible/displayed after the user has selected "no" in the Show tooltips settings

History

#1 - 05/16/2012 09:00 PM - Jesús García Crespo

Dan, this could be related to a specific theme, could you check with Caribou and Trillium?

#2 - 05/17/2012 09:00 PM - Anonymous

- Status changed from New to New

- Priority set to Medium

- Target version set to Release 1.3

Tested in Caribou, Trillium and Columbia and tooltips appear AFTER Admin has selected NO.

[g] Labels added: Priority-Medium, Milestone-Release-1.3, Component-Forms

#6 - 08/29/2012 09:00 PM - Jessica Bushey

- Target version changed from Release 1.3 to Release 2.1.0

[g] Labels added: Milestone-Release-2.0

[g] Labels removed: Milestone-Release-1.3

#7 - 12/13/2012 04:51 AM - Jesús García Crespo

- Target version changed from Release 2.1.0 to Release 1.4.0

- Sponsored set to No

#8 - 12/13/2012 04:51 AM - Jesús García Crespo

- Assignee changed from Jesús García Crespo to José Raddaoui Marín

#9 - 12/16/2012 05:06 PM - José Raddaoui Marín

- Status changed from New to In progress

#10 - 12/20/2012 07:24 AM - Jesús García Crespo

- Status changed from In progress to QA/Review

Fixed in commit:1db2e43c8cff3fd01d62a144c6c072c2d2963ad3.

During QA/Review please consider that multiple forms are using tooltips:

- actor/edit
- informationobject/edit (RAD, DC, ISAD, MODS)
- menu/edit
- function/edit
- repository/edit
- accession/edit
- deaccession/edit
- ... more?

#11 - 12/20/2012 02:58 PM - Dan Gillean

- Status changed from QA/Review to Feedback

Tested in all themes (Caribou, Trillium, Allouette, Columbia), across all 4 descriptive templates (MODS, RAD, ISAD, Dublin Core), in two different browsers (Firefox 17, Internet Explorer 8), with no issues. Also tested add/edit accession records, functions, repositories, actors; manage/edit donors, etc, also without finding any issues.

The only place I encountered persistent tooltips was on the deaccession records page. To recreate:

- 1) Navigate to Add > Accession record
- 2) Fill out information
- 3) Navigate to Manage > Accessions
- 4) select the new accession from the list
- 5) At the bottom of the showscreen, select "Deaccession"
- 6) Place cursor in "scope" field, or any field below the deaccession number

#12 - 12/20/2012 03:00 PM - Dan Gillean

- *Description updated*

#13 - 12/21/2012 05:25 AM - José Raddaoui Marín

- *Status changed from Feedback to QA/Review*

- *% Done changed from 0 to 100*

Applied in changeset atom|commit:febc3c7212af621c7fbb093a88a0fa6adb30093.

#14 - 01/02/2013 07:41 AM - Dan Gillean

- *Status changed from QA/Review to Verified*

checked across all themes, in FF 17 and IE8 - no issues encountered.

#15 - 04/19/2013 12:51 PM - Jesús García Crespo

- *Target version changed from Release 1.4.0 to Release 1.3.1*
