Description

1. Create archival description. Switch to language other than English (e.g., Spanish)
2. Link or Import a digital object to the description.

Resulting Error:

Image metadata is added to description but NO representation of the digital object.

Expected Result:

Linked digital object, to be viewed in archival description with metadata.

Note: I could not run AtoM in dev/debug mode, so I could not provide further information about the bug.
