

## Archivematica - Bug #970

### Add option to allow SIP to continue processing if files fail normalization

12/14/2010 12:00 AM - Evelyn McLellan

<b>Status:</b> Verified	<b>Start date:</b>

**Description**

Currently, the SIP fails if any of the files fail normalization. Some institutions may wish to have the SIP continue to be processed anyway. In this case, normalization failure would trigger an extra approval step, or the system would be configured to allow the SIP to continue processing.

#### History

##### #1 - 12/22/2010 12:00 AM - Joseph Perry

Committed r942.

##### CONFIGS

```
MCPServer/etc/mcpmodules/normalize.xml
continue processing
<failureDirectory>%watchDirectoryPath%failedNormalization/</failureDirectory>
fail
<failureDirectory>%watchDirectoryPath%failed</failureDirectory>
```

```
MCPServer/etc/mcpmodules/normalization Failed.xml
Requires user intervention to continue:
<requiresUserApproval>Yes/No</requiresUserApproval>
```

##### PROBLEMS

SIP tagged as failed in dashboard.  
wasn't sure what to call the step to continue processing after failure.
